

“ Harlan, Iowa, Community Middle School’s 8th grade has gained from learning more about Alcohol Poisoning from the SAM Spady Foundation and DVD. Each 8th grade student has received a wallet card to carry and share about the warning signs. When we show the DVD *‘Death by Alcohol: The Sam Spady Story,’* to our 6th and 7th graders, the 8th graders help facilitate and answer questions with our younger students. This will reinforce the concept for 8th graders when they have to teach as well as learn.

We showed the DVD before prom at the HS to selected student.

Thank you for sharing your message with us. As a parent and an educator, thank you.

We will be ordering more cards for our students and community.”
