

Thank you so much for making this video. I watched it today as part of my sorority's alcohol education program and I truly appreciate the effort you are putting in so that another tragedy like this does not happen.

You have opened my eyes to the fact that alcohol poisoning isn't a matter of 'sleeping it off' and I assure you that the video my pledge class saw today made us better informed, and more aware of this issue.

I will always make sure to look after my sisters and friends in a way I honestly never would have thought of before.

THANK YOU THANK YOU THANK YOU.
You are truly making a difference.
